

AMITY GLOBAL INSTITUTE

MODULE SYLLABUS

Course	Postgraduate Diploma in Business Administration (Finance)
Module Title	Accounting for managers
Module Syllabus No. (if any)	BAM200
Content	<p>Management accounting is a dynamic discipline which interacts with many facets of the organisational environment in which it exists across nations, industrial settings, and management functions. It entails the application both of long-established techniques and of newly emerging concepts. Consequently, the module covers areas such as job costing and process costing, cost-volume-profit relationships, capital investment decisions and budgetary control systems in the light of changes in modern day operational circumstances. Throughout the module, students can explore emerging themes within the field of management accounting which are regarded as important for organisations seeking to evolve their management accounting systems.</p> <p>The module pays particular attention to concerns and issues within an international setting. The module endeavours to cover fundamental concepts and techniques of management accounting while also highlighting the diversity of approaches and practices which management accounting are viewed to encompass in different countries</p>
